Hello All,

Attached are the meetings notes from our 3/20 meeting. Please let me know if I forgot anything or misinterpreted.

We at EPA are planning to meet with our management to discuss the preferred approach and next steps before our next group meeting on Wednesday, 4/10. Unfortunately, that won't leave us enough time to draft an endpoint approach document to share with the group beforehand.

Perhaps at our 4/10 meeting we can discuss the process for our potential stakeholder comment period (i.e. who would share the document with stakeholders and solicit comments, etc.). We can also think about a timeframe.

If by chance DOEE has applied SF's trash generation rates in the DC portion of the Anacostia, perhaps we can discuss those results too.

Thank you and feel free to reach out with any thoughts or questions.

When: Wednesday, March 20, 2019 11:00 AM-12:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ex. 6 conf line

I'd like to use this meeting as an information sharing opportunity. Hopefully over the last few months, we've had time to do some research on our own and discuss within our small groups. So please come prepared to share your knowledge on potential structural controls for trash.

Rough Agenda

- San Francisco Bay area trash generation study (Jillian)

- San Francisco Bay area trash structural controls (Jillian)
- Baltimore's stormwater inlet grates (Anna)
- Current controls in the Anacostia (Matt R.)
- Others?
- Next Steps
